Price of local solar modules in Vietnam

Overview

How much do solar panels cost in Vietnam?

Solar panel costs in Vietnam have declined steadily, following global trends while maintaining competitive advantages. Average pricing for high-quality monocrystalline panels decreased from \$0.34 per watt in 2022 to \$0.28 per watt in 2024, with further reductions anticipated as production scales increase.

Does Vietnam have a solar panel market?

Vietnamese solar panel production capacity has grown from 2.5 GW in 2019 to an impressive 18.7 GW by 2024, representing a 648% increase in just five years. This remarkable growth has positioned Vietnam as the fourth-largest solar panel exporter globally, capturing approximately 12% of the worldwide market share.

Where can I buy solar equipment in Vietnam?

Equipment Manufacturers: International solar equipment manufacturers, such as JinkoSolar, Trina Solar, and Hanwha Q CELLS, have a strong presence in the Vietnamese market. These companies supply PV modules, inverters, and other solar components to local developers and EPC contractors.

What are the different types of solar energy systems in Vietnam?

By Technology: Solar energy systems can be categorized based on technology, such as photovoltaic (PV) and concentrated solar power (CSP). PV technology dominates the market, accounting for the majority of solar installations in Vietnam.

Price of local solar modules in Vietnam

Vietnam Solar Cell and Module Market (2025-2031) , Trends, ...

6Wresearch actively monitors the Vietnam Solar Cell and Module Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, ...

Vietnam Solar Panel Manufacturing Report , Market Analysis ...

Explore Vietnam solar panel manufacturing landscape through detailed market analysis, production statistics, and industry insights. Comprehensive data on capacity, costs, and growth.

Vietnam Solar Module Market Size, Share, Trends and ...

The Vietnam solar module market size reached USD 882.00 Million in 2024. The market is projected to reach USD 1,390.84 Million by 2033, exhibiting a growth rate (CAGR) of 4.66% ...

The rise of solar energy in Vietnam: Opportunities & challenges

Explore the rapid growth of solar energy in Vietnam with DAT Group -- leading provider of renewable energy solutions. Discover policies, market trends, and future ...

Solar SGX - Updating Prices of Solar Panels in Vietnam

The prices of solar panels in Vietnam are subject to fluctuations based on different time periods and government regulations regarding the installation and deployment of solar ...

Solar Power Costs in Vietnam 2025: Pricing Framework and

...

The investment cost for solar power systems ranges from 35 million to 240 million VND for systems from 3 kWp to 20 kWp, depending on factors such as capacity, equipment ...

Vietnam's Growing Solar Panel Industry: Market Overview

Vietnam's solar panel industry is experiencing unprecedented growth, driven by rising energy demands and the country's commitment to sustainable development. However, challenges ...

Top 10 Solar Companies in Vietnam [Updated 2025]

VSUN Solar, having more than 10 years of solar energy business experience in R& D, manufacturing, engineering, and procurement, is a solar module solution provider ...

Vietnam Solar Energy Market - Size, Share, Trends, Analysis

...

Solar Manufacturing: The solar manufacturing segment includes the production of PV modules, inverters, mounting structures, and other solar components. Domestic manufacturing ...
