# Price of power station generator

## Overview

---

How much does a portable gas generator cost?

Portable gas generators can range in price from a few hundred dollars to several thousand dollars. If you only need it for occasional use, then a less expensive model may be all you need. However, if you plan on using the generator regularly or for extended periods of time, then a more expensive model may be a better choice.

Where can I buy Chinese power station generator products?

Made-in-China.com is a B2B platform for global buyers to source Chinese Power Station Generator products and Chinese Power Station Generator manufacturers. You can send your questions like minimum quantity to our suppliers by clicking the red button "Contact Now". Many of our suppliers' products are flexible and sometimes only 1 is needed.

What is a power generating station?

The simple answer is a power generating station, also known as a power plant, usually someplace far away. But the reality is much more complicated than that. Generation is only the first of many steps our power takes on its nearly instantaneous journey from production to consumption.

What is the cost of a generator?

The cost of a generator varies depending on its size and features. For instance, a recreational inverter generator offers between \$400 and \$1,000.
