Price per square meter for solar glass greenhouse

Overview

What is the cost of a solar greenhouse?

A solar greenhouse is the most expensive type of greenhouse to install, with an average cost of between \$35 and \$45 per square foot. For example, a small 50-square-foot greenhouse would likely cost around \$2000, while a larger one can easily exceed \$10,000.

How much does a commercial greenhouse cost?

Generally, you might see typical costs ranging from \$15 to \$35 per square foot. However, more advanced or specialized structures can exceed this range. Here are the average costs for different types of commercial greenhouses, and you can easily calculate the cost of a 10,000 sq ft commercial greenhouse using the calculator below.

Should you invest in a commercial greenhouse?

Commercial greenhouses can provide significant advantages for large-scale farming: from precise climate control and extended growing seasons to enhanced crop yields. Yet, the initial investment and ongoing operational costs of a commercial greenhouse are often a major concern for growers.
