## Overview

---

Why should you buy a container in South Africa?

Whether you need a mobile office, spaza shop, or secure storage, our containers are built to last, with wind- and water-tight designs. According to a 2024 industry report by IBISWorld, the South African container market is growing at 4.2% annually, driven by demand for modular solutions in construction and retail.

How big is the container market in South Africa?

According to a 2024 industry report by IBISWorld, the South African container market is growing at 4.2% annually, driven by demand for modular solutions in construction and retail. From mining sites in Limpopo to urban projects in Johannesburg, we deliver nationwide with crane trucks for efficient setup.

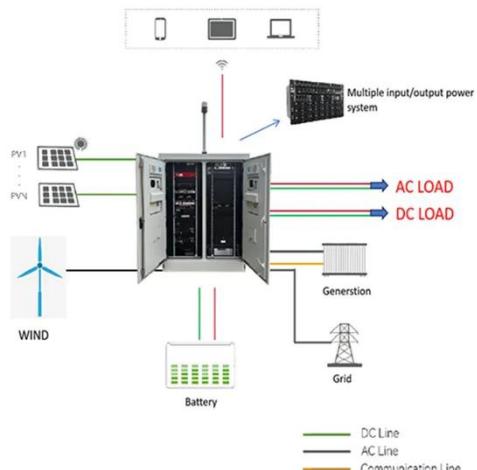

What determines the final container price for international shipping?

There are a number of different elements that define the final container price for an international shipping. Some key factors are: The type of container required: 20ft, 40ft, 40ft HC. all depends on your needs The Incoterm used in the contract will define which part (exporter or importer) pays each transport service.

What is a 10 ft container?

This container type is designed to cater for the storage of different goods in the same container by having doors at both ends. A 10ft container is perfect the size because it's a versatile, sturdy, and cost-effective solution for a small office set up. Perfect for onsite security access or small home offices.
