# **Quotation for wind power base station of Cote d Ivoire power plant**

## Overview

---

How will The Atinkou project impact the energy sector in Côte d'Ivoire?

The new power plant will be the most efficient gas power plant in Côte d'Ivoire and the West Africa region, while also helping in reducing the carbon footprint from power generation. The Atinkou project is a key project for the sustainability of the Ivorian energy sector.

Why is Atinkou 390 MW a priority project in Côte d'Ivoire?

The Atinkou 390 MW gas power project has been selected by the GoCI as a priority project to meet baseload requirement of Côte d'Ivoire and strengthen its status as first energy exporter in the region due to its combined cycle technology which provides with unique efficiency levels.

How many MW will Atinkou power plant have?

In order to strengthen the Ivorian electricity network, the Atinkou power plant, built on a 30-hectare site, will have a capacity of 390 megawatts (MW).
