RV equipped with 1200 watts of solar energy

Overview

Do RVs need solar power?

For RVs solar and generators serve different purposes. Solar provides quiet, free, sustainable power but requires good weather and has power limitations. Generators offer reliable power regardless of conditions but are noisy and require fuel. Many RVers use both for flexible reliable power. Can I run my RV air conditioner on solar power?

.

How much Solar do you need for an RV?

For basic weekend power needs (lights, fans, water pump, 12V fridge), 200 to 400 watts will do, for full-time RV living though, you'll need much more solar, typically 600 to 1,200 watts. Which is better for an RV, solar or generator?

For RVs solar and generators serve different purposes.
