# **Ranking of UPS uninterruptible power supply brands for computer rooms**

## Overview

---

Do you need a reliable uninterruptible power supply (UPS)?

If you want to keep your PC running smoothly during power outages, a reliable uninterruptible power supply (UPS) is a must. With various options available, choosing the right one can be overwhelming. Whether you need a high-capacity model for demanding setups or a compact solution for basic use, there are choices to fit every need.

Why should you buy an uninterruptible power supply?

A UPS serves a backup battery role in case of a sudden power outage, preventing your PC from shutting down before you're able to save your work, close your game, etc. A UPS is an ideal pick for anybody who wants clean and stable power delivery to their PC. What Makes an Uninterruptible Power Supply Brand Good?

What is the best uninterruptible power supply brand?

The best uninterruptible power supply brand is going to be whichever one is selling the best UPS for your rated capacity and price point. It will most likely be CyberPower, APC, or Liebert, but the specific answer will depend on the day you're reading this article.

Who makes uninterruptible power supply?

APC was founded in the United States in 1981, and is another prominent Uninterruptible Power Supply brand. APC is probably the most well-known provider of UPS devices in general, known for providing premium UPS units for about as long as they've been in business.
