Overview

Will Lithuania build a 100 MW solar plant in Riga?

Lithuania's SNG Solar is set to build a 100 MW solar plant in the port of Riga, Latvia. Upon completion, the facility will be one of the largest solar projects in the Baltics. Lithuanian solar developer SNG Solar has signed an agreement with the Freeport of Riga Authority to construct a 100 MW solar plant in the port of Riga.

Will a solar energy park be built in the port of Riga?

Today, on 9 September, an agreement was signed between the Freeport of Riga Authority and the Lithuanian company SNG Solar on the lease of land in the Port of Riga in the Spilve Meadows area for the development of a solar energy park.

Will SNG solar build a 100 MW solar plant in Riga?

Lithuanian solar developer SNG Solar has signed an agreement with the Freeport of Riga Authority to construct a 100 MW solar plant in the port of Riga. SNG Solar will build the 100 MW solar plant within five years, as outlined in the agreement.

How will SNG solar benefit the Freeport of Riga?

Earlier this year, SNG Solar secured the land lease rights through an auction. The Freeport of Riga will receive 2.5% of the green energy generated, which will support port infrastructure and operations. The plant is expected to produce about 100,000 MWh of green electricity per year.
