Romania Chemical Energy Storage Project

Overview

Will Romania become a European energy storage center?

A €50 million project promises to turn Romania into a European energy storage center, thanks to an agreement between US giant Lockheed Martin and Romanian company Sinteza SA.

Who is involved in a Romanian energy project?

The project is part of a wider series of initiatives supported by the Energy Ministry, which also includes other Romanian companies such as Crișana Pro Construct SA, Ecorec Recycling SRL and Grima Com SRL.

How much storage capacity will Romania have in 2025?

This single project will double Romania's current installed storage capacity of 398.8 MWh, a figure that comes from transmission system operator Transelectrica, and mentioned by Romania's energy minister Sebastian Burduja in April, 2025.

What is Romania's largest battery project?

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Florești, Cluj county, which is expected to be operational by the end of 2025.
