

BLINK SOLAR

Romanian rooftop solar panel manufacturer

Overview

How is Romania supporting rooftop solar?

Romania supports rooftop solar installations through the Casa Verde Fotovoltaice (green PV home) scheme, which is part of the national net metering regime. According to the latest statistics from the International Renewable Energy Agency, Romania had 1.39 GW of solar installed by the end of 2020. Romania is also promoting rooftop PV deployment.

Who are the top solar companies in Romania?

Romania's solar arena is moderately concentrated, with Photon Energy Group and Enel Green Power Romania anchoring the top tier, while Nofar Energy, Econergy, and NextE Renewable are expanding aggressively. International developers form local joint ventures to navigate the permitting and community engagement processes.

How does the Romanian solar energy industry work?

When exploring the solar energy industry in Romania, several key considerations come into play. The regulatory framework is an essential aspect, as the Romanian government supports renewable energy through various incentives, including feed-in tariffs and green certificates.

Who is Sol renewables Romania?

With a strong background in renewable energy, they also offer EPC services for solar projects in Romania. Sol renewables Romania develops and manages solar utility projects on land. We co-invest alongside international investors and manage solar photovoltaic projects for them.
