Rome is full of solar panel manufacturers

Overview

Where is Aeroporti di Roma's new solar farm located?

Aeroporti di Roma (ADR) today inaugurated its new solar farm, which instantly becomes one of the largest photovoltaic systems in the world within an airport perimeter. The solar farm is located along the eastern side of Runway 3 at Rome Fiumicino Airport.

Where is the solar farm located in Rome Fiumicino?

The solar farm is located along the eastern side of Runway 3 at Rome Fiumicino Airport. The new infrastructure was designed by ADR and built by Enel in collaboration with Circet, following a European public tender after which the integrated contract was assigned.

What is the solar industry in Italy?

The Italian solar industry encompasses everything from residential rooftop installations to utility-scale solar farms, with companies specializing in various segments of the value chain. Italy's solar capacity has grown exponentially in recent years, with over 35 GW installed as of 2025.

Which solar panels are used in Italy?

LONGi has supplied panels for numerous Italian solar projects, including the innovative solar greenhouse installations in Sicily that combine agriculture with energy production. Their Hi-MO series modules have gained popularity among Italian installers for their high efficiency and reliability in various climatic conditions.
