Rtk base station power cannot

Overview

How do I power a RTK base station?

To power the base station from a power bank or PC. RTK base station has an SMA connector to connect an antenna. RTK base station does not include, but requires a good quality GPS/ GNSS antenna. RTK base station supports full L1/L2/L5 bands.

What is an RTK base station?

An RTK base station is a fixed GNSS receiver placed on a known or unknown point. It used satellite signals to continuously calculate its position. Then it sends real-time correction data to a rover in the field. Thus, your rover can achieve maximum accuracy, up to centimeters. This practice replaces you being off by several metres using GPS alone.

How do I connect my RTK base station to my router?

Connect the RTK base station to your router with an Ethernet cable. In the toolbar, go to Communication->Ethernet. At the Ethernet Interface Mode, check Power on. In most of the routers automatic IP is used. To work in this way, select DHCP. If you prefer to set up your local IP manually, you can also do it from this menu. Press Ok.

Does RTK base station have an SMA connector?

RTK base station has an SMA connector to connect an antenna. RTK base station does not include, but requires a good quality GPS/ GNSS antenna. RTK base station supports full L1/L2/L5 bands. If you want to get the most out of this base, we recommend to use Budget Survey Tripleband GNSS Antenna (IP66).
