# **Sale price of generator container**

## Overview

---

How much do Commercial Generators cost?

Prices for dependable commercial generators start at around \$8,000 - \$12,999. Don't forget to factor in maintenance and safety considerations when using a commercial generator. With the right generator, your business will be prepared for any future power outages.

How much does a portable generator cost?

The cost of a portable generator ranges from \$1,000 to \$2,500 for a larger model (7-8 kW) that can power a good portion of a smaller or older home. However, it may not provide enough energy for a large central air conditioning system or a heat pump. For instance, the Powermate PM 0497000.02 [1] is priced at approximately \$1,300 to \$1,900.

What is a forx container type diesel generator set?

FORX container type diesel generator set uses advanced sound-absorbing material, through scientific design and the advanced technology in the field of acoustics, airflow to achieve the goal that reduces the noise.

How much does it cost to ship a generator?

The cost to ship a generator can vary quite a bit, from a few hundred dollars for a small, residential standby generator, to thousands of dollars for a large industrial generator. Shipping costs are typically charged at a per-mile rate.
