Saudi Arabia Power 2 2KWH Base Station

Overview

How much power will Saudi Arabia's Rumah 2 & Nairyah 2 power plants produce?

Each plant will have a generation capacity of around 1.8GW. Siemens Middle East Gas Services Sales head Ahmed ElSerry said: "Supplying key technologies for the Rumah 2 and Nairyah 2 power plants directly supports Saudi Arabia's energy transition and its goal of achieving net zero emissions by 2060.

Which power plants will be built in Saudi Arabia?

Core components for the power plants will be manufactured at the Siemens Energy Dammam Hub, which is currently expanding to increase local production capacity and support Saudi Arabia's energy sector. Rumah 2 and Nairyah 2 will rank among the world's largest combined-cycle power plants.

What does Siemens Energy's \$1.6 billion contract mean for Saudi Arabia?

Siemens Energy has secured a \$1.6 billion contract to supply key technologies for the development of the Rumah 2 and Nairyah 2 gas-fired power plants in Saudi Arabia.

Who is the EPC contractor for Saudi Arabia's Rumah 2 & Nairyah 2?

Siemens Energy announces that it has been awarded a USD 1.6 billion project, with Harbin Electric International as the EPC contractor, to provide key technologies for the Rumah 2 and Nairyah 2 gas-fired power plants in Saudi Arabia.
