In Q1 2025 alone, it contributed USD 4.035 to the nation's GDP. Biggest ongoing construction projects in Singapore are the Cross Island Line and North-South Corridor, both enhancing connectivity. The upcoming construction projects in Singapore 2025, such as the Jurong Innovation District (JID), are geared toward advanced manufacturing and R&D.

What makes Singtel a new tech community?

Spiraling upwards above the arcade, a series of stairs, voids, and a mixed-use auditorium form the heart of the new tech community for Singtel. The incorporation of greenery throughout the project continues at the base of the towers with balconies that offer tenants outdoor space and enhance the richness and depth of the architectural character.

What projects is CRL Tampines & Johor Bahru – Singapore Rapid Transit System (RTS) working on?

The company is currently involved in the construction of CRL Tampines North station, Jurong Region Line Boon Lay station and Johor Bahru – Singapore Rapid Transit System (RTS) Link viaduct and tunnels. It is also involved in the construction of the Jurong East Integrated Transport Hub.
