# **Singapore's new energy storage solution announced**

## Overview

---

Why does Singapore need a solar energy storage system?

Mr Puah Kok Keong, Chief Executive of EMA, explained why this is important. He said, “As Singapore expands solar deployment, energy storage systems will become more important to enhance grid resilience and ensure power system stability.” Posh Electric will test a new kind of battery. These are called sodium-ion batteries (SIBs).

Does Singapore need energy storage systems to manage solar intermittency?

However, the minister said there is a need to “step up energy storage systems to manage solar intermittency.” Talks are currently ongoing with Sembcorp, the engineering conglomerate behind the 200MW/285MWh battery energy storage system (BESS) installation on Singapore’s Jurong Island.

When will Southeast Asia's largest energy storage system be up?

The Republic will achieve its target of having “giant batteries” to store at least 200MW of energy three years early, when Southeast Asia's largest energy storage system on Jurong Island is up and running by November.

How can Singapore improve energy storage?

The two companies chosen are Posh Electric and VFlowTech. They will work on different projects to improve energy storage. Energy storage is very important for Singapore. It helps the country use more solar energy. Solar energy is not always available, like at night or on cloudy days. Energy storage systems can keep extra energy for later use.

## Singapore's new energy storage solution announced

---

### Energy Storage Systems

From renewables to innovative energy and urban solutions, we play our part in creating a sustainable and low-carbon future across Asia ...

---

## Singapore poised to be the 'core' of 25GW ...

Singapore could sit at the "core" of new regional electricity grids in Southeast Asia, according to research from Rystad Energy.

## Sembcorp, Mitsubishi announce two battery storage firsts for Singapore

Sembcorp has successfully piloted a battery stacking solution at the nation's largest operating battery energy storage project, while Mitsubishi has announced plans for ...

## Shaping Singapore's Green Economy with Advanced Battery Storage

Singapore, 10 October 2025 - Green Tenaga Pte Ltd (Green Tenaga), the Institute of Technical Education (ITE) and Narada Asia Pacific Pte Ltd (Narada Asia Pacific) have officially unveiled ...

### Singapore's first floating energy storage ...

It is part of a \$10 million partnership between the Energy Market Authority (EMA) and Seatrium to develop innovative energy ...

## Singapore will reach its 200MWh energy storage target 3 ...

Singapore will achieve its target of having "giant batteries" to store at least 200MW of energy three years early. The 200MW system is currently being installed across two sites ...

### Singapore will reach its 200MWh energy ...

Singapore will achieve its target of having "giant batteries" to store at least

200MW of energy three years early. The 200MW system is ...

## S\$7.8M EMA Grant for Sodium-Ion Battery ...

Singapore awards S\$7.8M EMA grant for energy storage solutions. Posh Electric to test sodium-ion batteries as cheaper ...

<i>LiFePO<sub>4</sub> Battery,safety</i>
<i>Wide temperature: -20~55°C</i>
<i>Modular design, easy to expand</i>
<i>Wall-Mounted&amp;Floor-Mounted</i>
<i>Intelligent BMS</i>
<i>Cycle Life: ≥ 6000</i>
<i>Warranty: 10 years</i>
