Overview

Who makes a battery for a forklift?

EKT is a lithium-ion battery specialist, we manufacture battery solutions for all models of forklifts, offering customization to suit your forklift, application and budget. Custom options we offer include battery pack integration, battery management systems, and more.

What is a lithium ion forklift battery?

Exploring lithium-ion forklift battery options can help you achieve your sustainability and commercial goals. A li-ion battery uses “lithium salt” as electrolyte which, mixed with other chemical elements, improves its performance and durability. The advantage over other batteries is their ability to store a high energy density in a small space.

Are lithium-ion batteries good for a forklift?

Whatever your business focus and forklift application, lithium-ion batteries can offer greater efficiency and higher performance. Suited to working in both hot and cold environments, they deliver an all-round solution to material handling. Did you know?

.

Are our lithium-ion batteries EU compliant?

In accordance with battery regulation (EU) 2023/1542, our lithium-ion batteries come with the EU Declaration of Conformity regarding battery performance and durability and the Product Data Sheet and Safe Handling information to support transparency, safe handling and regulatory compliance for our battery-containing products.
