Smart PV combiner box price

Overview

What are the different types of PV combiner box?

VRM offers different types of Solar PV Combiner Boxes based on customer requirement. They deal in Array Junction Boxes, string Combiner Boxes, and string Combiner Boxes. The Solar PV Combiner Box is customized based on the input leads from the Solar PV Module and the output lead either to an inverter or a Main Junction Box (MJB).

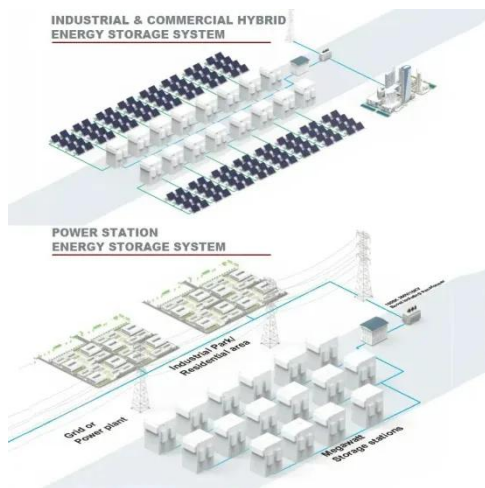

Why should you choose a combiner box for your PV system?

So, there would be no numerous or long pieces of wires. Apart from that, combiner boxes offer extra protection to your PV system. They come with surge protectors, which protect your inverter from overcurrent and overload. Then they may also come with anti-backflow diodes, which ensure that the battery does not lose charge over time.

What is jtpv series Smart photovoltaic combiner?

Basic Info. Model NO. JTPV series smart photovoltaic combiner is designed for multi-string inputs photovoltaic generation system. JTPV integrates functions as string combining, detection, monitoring and protection, and ensures secure, reliable and simple connection between multi-string PV inputs and inverter.
