Solar Street Light 5v System

Overview

What is a solar street light system?

A solar street lamp system is a lighting system for the illumination of streets, roads, squares, and common public areas. It uses the sun's light to work. solar powered street light is the complete set of Solar Panel, Lithium Battery, Light, Charge Controller & Poles. There are two designs split solar street light and integrated solar street light.

What is pv5 series solar street light?

PV5 series all in one solar street lamp features an integrated design. This new series integrated solar street light achieves an overall illumination efficiency of 220lm/W. And its monocrystalline silicon solar panel has a conversion efficiency of 23%, and lithium battery can withstand over 2000 charge-discharge cycles.

How to design a solar street light?

1. Solar Street Lighting Demand Design Formula: $P_{LED} = E \times A / (\eta \times U \times K)$
Example: Road width 6m, distance between lights 25m, target illuminance 20 lx $\rightarrow P_{LED} = 20 \times (6 \times 25) / (0.85 \times 0.5 \times 0.75) = 20 \times 150 / 0.32 \approx 94W \rightarrow$ Choose a 100W LED module (Luminous flux 15,000 lm)
2. Solar Street Light Photovoltaic System Capacity Calculation Steps: 3.

Which solar street lights are available?

Our All-In-One Solar Street Light is available in the SIRIUS (INL-AIO9), GALAXY (INL-AIO6), ALIEN (INL-AIO5), and POLARIS (INL-AIO2) series. Utilizing the latest integrated design, the lithium battery, solar controller, and solar panel are all housed within the light casing.

GRADE A BATTERY

LiFePO4 battery will not burn when overcharged over discharged, overcurrent or short circuit and can withstand high temperatures without decomposition.

Solar Street Light , Manufacturer , ZGSM

Solar Street Light Things You Need to Know About Solar Street Lights Why Choose Solar Led Street Lights? The solar street light is a new type of road lighting fixture. During the day, monocrystalline or polycrystalline silicon solar panels convert solar sun energy into electricity, which is stored in maintenance-free valve-sealed batteries or lithium batteries through the solar controller, and at night, the solar controller controls the discharge of the See more on zgsm-china gsbsolar
