## Overview

---

What are Solar System projects?

Solar system projects are a great way to introduce kids to the Solar System and the planets. Examples include creating a hanging solar system mobile or making planets and a sun from clay to help teach about space.

How do you make a Solar System project?

Here are some ideas: Use old CDs or plastic lids for planets. Turn cardboard boxes into a base for your solar system or use them to cut out planet shapes. Recycle old newspapers or magazines for papier-mâché projects or to make textured surfaces for planets. What are some creative ways to display the solar system project?

What is a solar system model project?

The solar system model project allows you to dive into the fascinating world of space science while engaging in a hands-on experience that stimulates your creativity. So why wait?

Get ready to discover the wonders of our solar system by immersing yourself in this captivating project.
