Overview

What happened to SolarEdge?

MILPITAS, Calif. -- (BUSINESS WIRE)--Nov. 27, 2024-- SolarEdge Technologies, Inc. ("SolarEdge" or the "Company") (NASDAQ: SEDG), a global leader in smart energy technology, announced today that as part of its focus on its core solar activities, it will cease all activities of its Energy Storage division.

Will SolarEdge close its energy storage division?

This does not impact the solar business sale of batteries for residential and C&I markets. Ronen Faier, Interim Chief Executive Officer of SolarEdge, said: "The decision to close our Energy Storage division was the result of a thoughtful analysis of our portfolio of businesses and product lines, industry trends, and the competitive environment.

What's going on with California Solar & Storage?

The California Solar & Storage Association reports that the fallout includes thousands of stalled projects, over 17,000 industry layoffs, and a wave of high-profile bankruptcies. While stronger players demonstrate some resilience, impacted homeowners and solar employees face prolonged uncertainty.

How did California's Solar Policy Impact the solar industry?

These adverse state policy impacts exacerbated financing shifts, triggering plummeting demand and an 80% decrease in rooftop solar installation volume. The California Solar & Storage Association reports that the fallout includes thousands of stalled projects, over 17,000 industry layoffs, and a wave of high-profile bankruptcies.
