Solar glass production in Lima

Overview

Is there a glass factory in Peru?

Based on preliminary market research, there is currently no local glass production capacity in Peru. KEDA Industrial Group's investment in establishing a factory in the region aims to replace imported products and seize market space. The selected site for the glass factory is close to the Pan-American Highway, ensuring convenient transportation.

How big is the Solar Photovoltaic Glass market?

Image © Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The solar photovoltaic glass market size reached 32.10 million tons in 2025 and is forecast to reach 74.75 million tons by 2030, advancing at an 18.42% CAGR between 2025 and 2030.

What happened to Keda Peru glass factory?

A month ago, after 6 months of concerted efforts, multiple rounds of negotiations, risk management, as well as surveys and legal procedures, KEDA Peru Glass Factory successfully held a land signing ceremony in Lima, the capital of Peru.

How will the Solar Photovoltaic Glass market continue to grow?

Competitive strategies range from Chinese producers expanding commodity capacity to Western incumbents investing in circularity, low-carbon furnaces, and specialty coatings. These shifts together position the solar photovoltaic glass market for resilient growth throughout the decade.
