# **Solar lights for home and commercial use**

## Overview

---

Are commercial outdoor solar lights a good choice?

Get off to a bright start with commercial outdoor solar lights from Greenshine. When it comes to outdoor commercial solar lights, solar LED lights are your #1 option. Commercial outdoor solar street lights are a perfect combination of environmentally friendly, green technology paired with energy-efficient LED fixtures for maximum cost-effectiveness.

Are solar lights a good option for outdoor space?

One great way to illuminate your outdoor space is with solar lights. Sarah Jameson, marketing director of Green Building Elements, says, "Solar lights, compared to low voltage and line voltage outdoor lights, are safer and more DIY-friendly since there's little to no wiring required at all."

Why is solar lighting better than traditional lighting?

A commercial-grade lighting solution that uses solar power to energize LED lights is superior to traditional lighting for several reasons. Eliminate costly energy bills, avoid potential lot destruction and "go green" with hi-tech, low footprint parking lot lights. Light your pathway with our energy-saving commercial solar lighting.

Are solar lights a good idea?

Solar lights are a great way to illuminate your yard, garden, pathway, or patio without relying on electrical wiring. We conducted thorough tests to find the best solar lights on the market.
