4G/CAN/RS485

Overview

How long is a solar panel warranty?

Solar panel warranties vary depending on the manufacturer, but in the solar industry, a 10-year product warranty and a 25-year performance warranty are typically considered the minimum standard. However, some manufacturers provide a 25-year product warranty and extend the performance warranty to 30 years. How Much Does a Solar Panel Warranty Cost?

.

What is a solar power warranty?

A solar panel's power warranty ensures that it will generate a certain percentage of its original output through its expected lifespan. Also known as the performance warranty, today's top-tier solar panels are sold with power warranties of at least 80% electricity-generating capacity after 25 or 30 years.

What warranties does a solar system have?

Today, most home solar energy systems include three primary coverages: product warranties, performance guarantees, and installation warranties. 1. Product warranties A solar product warranty covers the physical components of your system, such as the panels, inverters, or batteries.

How do I get a solar panel warranty?

Generally, the most robust warranties are obtained by hiring installation companies certified by the solar brands they represent. Alternatively, long warranties can also be secured from solar manufacturers that provide their own installation services. What Is Not Covered by a Solar Panel Warranty?
