Solar power station portable in Puerto-Rico

Overview

What is solar power in Puerto Rico?

Solar power is a renewable energy source that has been booming in Puerto Rico since the hurricane. Across the island, individuals, communities, and businesses are installing solar panels and battery systems. At the Community Foundation of Puerto Rico, Javier Rivera is working on solar systems with 50 mostly rural, underserved communities.

Can solar power be used as a shelter in Puerto Rico?

A solar power system in its entirety can serve as a shelter in Puerto Rico, according to the person in charge. With abundant sunlight available, solar power has been booming in Puerto Rico since the hurricane. Across the island, individuals, communities, and businesses are installing solar panels and battery systems.

Who is installing solar panels in Puerto Rico?

Individuals and communities, including the Community Foundation of Puerto Rico, are installing solar panels and battery systems across the island. Javier Rivera is working on solar systems with 250 mostly rural, underserved communities.

Who can install photovoltaic systems in Puerto Rico?

Only certified installers may install photovoltaic (PV) systems in Puerto Rico. In January 2010, additional regulations were passed requiring wind turbine installers to be certified as well in order to install wind systems.
