Solar powered portable outlet in Bangkok

Overview

What type of power outlet does Bangkok use?

Bangkok uses power outlets and plugs of types A, B, C & O. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Type A - Mostly used in the US, Canada, Mexico, Central America, China and Japan.

Can you use a plug outlet in Bangkok?

If you're travelling to Bangkok, you might be wondering if you can use your electrical appliances there. Different countries have different plug outlets, and there are a surprising number of variations out there. So to make sure you pack the right adaptor, read on for a handy guide to plug outlets in Bangkok. What plug types are used in Bangkok?

.

What type of outlets are used in Thailand?

The good news is the outlets that are most common in Thailand, both in Bangkok and throughout the country, are actually multi-type sockets that can accommodate each plug type. Unlike the U.S., and like most other countries - Thailand's electrical grid uses a frequency of 50 Hz and a voltage of 220V.

What type of plugs do they use in Bangkok?

In Bangkok, they use Type A, B, C, and O power plugs and outlets. Type A outlets have two flat prongs and no grounding pin. Type B outlets have two flat prongs and a grounding pin. Type A plugs will also fit. Type C outlets have two round prongs and no grounding pin. Type E and F plugs usually fit too, but grounded plugs will need an adapter.
