Solar tile service life

Overview

Do solar roof tiles need maintenance?

The life span of the solar roof tiles is less than 10 years, so we aren't fully sure about what kind of maintenance is required there. It is the point to think that as long as the solar tiles are appropriately interconnected, they do not ask for any type of maintenance.

Are solar tiles a good investment?

Solar tiles are more durable in nature than panels and ordinary roof shingles. They are also lighter in weight so that the roofing structure does not take much stress. This creates a multifunctional roof covering, which is a long-term investment. What Are Solar Tiles?

.

Why should you choose a solar tile roof?

The production of efficient energy is the biggest advantage of solar tile roofs and probably the most appealing thing to attract potential buyers. Solar roofs can help in the reduction of your electrical bill by the production of clean energy.

How long do Solar shingles last?

Since solar roof costs double the price of normal PV modules, their payback period is also double. However, the service life of both of the products is over 25 years. Long-term savings can be expected in both cases, but the solar shingles need more time to reach positive cash flow.
