Stockholm 2025 Base Station Site

Overview

When was the Stockholm metro built?

The Stockholm Metro was built between the 40's and the 80's. Since then, the metro system has been the same until today and is carrying one million daily passengers. Today, a major expansion with 18 new stations and 30 km of new subway is well underway and the first sections are due to open for traffic in a few years.

What are the new main lines between Stockholm - Gothenburg & Malmö?

The new main lines will in the future connect our three main cities Stockholm, Gothenburg and Malmö and also connecting people and businesses in the regions between the three main cities. The Swedish Transport Administration has the mission to plan, build and maintain new main lines between Stockholm-Gothenburg and Stockholm-Malmö.

What is wtc2025 in Stockholm?

During WTC2025 in Stockholm we'll be offering an array of technical tours around Stockholm to peak everyone's interest: from a giant traffic tunnel to a historic mine to novel urban development to Sweden's explosive past.
Duration: 09:30-12:00 (on site) and 13:30-16:00 (on site).

Why is Stockholm expanding its public transportation capacity?

Stockholm is expanding its public transportation capacity to meet the increasing mobility needs arising from the growth of the population in the Swedish capital over the last years.
