Sunshine 12kW PV Inverter

Overview

What is a sine wave inverter?

Low frequency pure sine wave inverter for solar power system, converts 120V/ 192V DC to 208V/ 400V/ 480V AC. High quality sine wave AC output off grid solar power inverter, no battery storage system, in the sunshine, the solar panels generate energy through the off grid inverter convert DC power to AC power.

What is an off grid solar power inverter?

High quality sine wave AC output off grid solar power inverter, no battery storage system, in the sunshine, the solar panels generate energy through the off grid inverter convert DC power to AC power. Two kinds of start modes: Step-down voltage start and variable frequency start. Customers can set start mode according to the type of their load.

What is a 12000 watt inverter?

12000 watt without battery 3 phase off grid inverter with MPPT function, two kinds of start mode: step-down voltage start and variable frequency start. Low frequency pure sine wave inverter for solar power system, converts 120V/ 192V DC to 208V/ 400V/ 480V AC.
