Sunshine grid-connected inverter wifi

Overview

For a quick WiFi setup, with the WiFi modules (WiFi-V21, WiFi-V22 and WiFi-V24) or eShow (built-in WiFi) plugged in to the inverter, then you can download the app (use SolarInfo Moni for the hybrid inverter SH5K, and use SolarInfo Home for Crystal inverters ending with -S or -D). What is a Sunshine grid tie power inverter?

Sunshine Grid Tie Power Inverter is the world's most technologically advanced inverter for use in utility-interactive applications. This manual details the safe installation and operation of the Sunshine Grid Tie Inverter.

How do I install a Sunshine grid tie inverter?

Installing Sunshine Grid Tie Inverter to a suitable place. Place the Sunshine Grid Tie Inverter on a surface protected from direct sunlight, high temperatures, and water. The inverter requires at least 150mm of clearance around itself for ventilation. The inverters are for indoor use, can't use outdoor.

How to install Sunshine grid tie power system?

Installation Procedure Installing Sunshine Grid Tie Power System involves several key steps: 1. Considering the total capacity of the grid tie power system that you need. 2. Choosing applicable solar panels for Sunshine Grid Tie Inverter. 3. Selecting accessory for installation of the Grid Tie Power System . 4. Step2.

How do I connect my techfine solar inverter to WiFi?

Make sure that the PWR indicator light on your TechFine solar inverter is illuminated, indicating proper power supply. Tap the “Wi-Fi Configuration” button to enter the network setup page. The app will begin scanning for nearby devices — locate and select your TechFine inverter from the list.
