# Super Large Energy Storage Project

## Overview

---

Why is EVE Energy building a super energy storage plant?

The 60GWh Super Energy Storage Plant Facilitates Mass Production To support the mass production of Mr. Big's large battery cells, EVE Energy is committed to building a world-class super energy storage plant.

Why is Tesla building a large-scale energy storage facility in China?

Their growing use helps stabilize power grids, prevent outages, and reduce reliance on fossil fuels. This project is Tesla's first large-scale energy storage installation in China, complementing its existing automotive manufacturing presence in the city through Giga Shanghai.

What is EVE Energy & Mr Big?

On December 10th, Eve Energy's 60GWh Super Energy Storage Plant Phase I & Mr. Big has been put into production. This factory is the largest single energy storage factory in the industry while Mr. Big is the first mass-produced 600Ah+ large battery cell.

Will Tesla build a grid-scale battery energy storage station in China?

Tesla has officially signed a ¥4 billion (C\$764/US\$557 million) deal to build its first grid-scale battery energy storage station in China, leveraging its Megapack technology.

## Super Large Energy Storage Project

---

### **Tesla's energy storage super factory in Shanghai begins trial**

The new factory plans to produce 10,000 commercial energy storage batteries Megapack annually, with an energy storage scale of nearly 40GWh, supplying the global ...

---

### **New-type energy storage poised to fuel China's growth**

In June 2024, a 100-megawatt-hour sodium-ion energy storage project began operation in Hubei province, representing the first large-scale commercial use of sodium-ion ...

### **China's largest standalone battery storage project powers up**

A 500 MW / 2,000 MWh standalone BESS in Tongliao, Inner Mongolia, has begun commercial operation following a five-month construction period, reflecting China's ...

## The World's First 600Ah+ Large Energy Storage Battery Project

The world's first 400MWh energy storage power station based on 628Ah large energy storage batteries achieved successful one-time power delivery.

## Tesla battery Megafactory in Shanghai launches production

Tesla's energy storage plant in Shanghai's Lin-gang Special Area commenced operation on Feb 11, as the assembly line started the production of the first Megapack unit. ...

## FLASH: Tesla energy storage super factory to be completed

This energy storage super factory is another large-scale investment project of Tesla in China, following the vehicle super factory. The project is expected to be put into ...

## Tesla's Shanghai Super Factory Launches Megapack Production for Energy

Tesla's Shanghai energy storage super factory officially began production. The Megapack looks like a white container and weighs over 38 tons. Tesla recently captured global ...

## Major supercapacitor hybrid energy storage project comes ...

...

The project adopts supercapacitor hybrid energy storage assisted frequency regulation technology, consisting of 60 sets of 3.35 MW/6.7 MWh battery energy storage ...

## Eve Energy's 60GWh Super Energy Storage Plant Phase I & Mr. Big ...

On December 10th, Eve Energy's 60GWh Super Energy Storage Plant Phase I & Mr. Big has been put into production. This factory is the largest single energy storage factory ...

## Tesla Signs \$557 Million Deal to Build First Grid-Scale Megapack Energy

Tesla's Megapacks are large lithium-ion battery systems designed for utility-scale energy storage. These systems store energy and discharge it to the grid during periods of ...
