# **Swedish sodium ion energy storage project**

## Overview

---

Why is sodium ion a good choice for energy storage?

Peter Carlsson concludes: “Our sodium-ion technology delivers the performance required to enable energy storage with longer duration than alternative battery chemistries, at a lower cost, thereby opening new pathways to deploying renewable power generation.

Will Northvolt mass produce sodium ion batteries?

[Home](#) » [Energy](#) » Sweden's Northvolt Will Mass Produce Sodium Ion Batteries  
Northvolt announced a state-of-the-art sodium-ion battery, developed for the expansion of cost-efficient and sustainable energy storage systems worldwide.

Could Northvolt's sodium-ion batteries be a key to sustainability?

While still in the early stages of development, Northvolt's sodium-ion batteries could become pivotal to the company's sustainability strategy. By 2030, the company says it wants to bring down the carbon emissions embedded in the battery production process by 90%.

How many sodium-ion battery manufacturing plants are there in China?

There are nearly 30 sodium-ion battery manufacturing plants currently operating, planned or under construction globally – almost all of them in China. In May, the country put its first large-scale sodium-ion battery energy storage station into operation.

## Swedish sodium ion energy storage project

---

### Altris

The Swedish sodium-ion battery developer Altris is proud to announce a partnership with Polarium, a leading energy storage developer. The two companies will collaborate to ...

### Sweden's Northvolt Will Mass Produce ...

Northvolt announced a state-of-the-art sodium-ion battery, developed for the expansion of cost-efficient and sustainable energy ...

### Northvolt: the battery company seeking to make batteries ...

The company had manufactured a first-of-its-kind energy storage battery by replacing widely used critical minerals - such as lithium, cobalt, nickel and graphite - with ...

## **Sodium-ion battery breakthrough unveiled by ...**

The recent breakthrough by Northvolt, a Swedish industrial start-up, in developing a sodium-ion battery cell has opened a new ...

## **Sweden's Northvolt Will Mass Produce Sodium Ion Batteries**

Northvolt announced a state-of-the-art sodium-ion battery, developed for the expansion of cost-efficient and sustainable energy storage systems worldwide. The cell has ...

## **Northvolt's Vision for a Greener Europe with Sodium Batteries**

The country has nearly 30 Sodium-ion Battery manufacturing plants, with its first large-scale Sodium-ion Battery energy storage station operational from May. Northvolt 's ...

## **Sodium-ion battery breakthrough unveiled by Northvolt**

The recent breakthrough by Northvolt, a Swedish industrial start-up, in

developing a sodium-ion battery cell has opened a new chapter in the realm of battery technology. This ...

---

### **Swedish Firms' Sodium-Ion Battery Fusion**

Swedish firms Altris and Polarium have announced a partnership to revolutionize the energy storage market with a sodium-ion battery cell offering higher energy density with ...

### **Northvolt Achieves Major Milestone in Sodium-Ion Battery ...**

Swedish battery manufacturer Northvolt announced a significant advance in sodium-ion battery technology for renewable energy storage this week. The company validated ...

---

### **Fluor Secures FEED Contract for Sodium-Ion Battery Facility in Sweden**

Fluor will provide FEED services for the

first industrial-scale sodium-ion battery facility in Sweden, with project management from its UK office. Completion is expected by ...

### **Broad collaboration around batteries for Sweden's green ...**

The researchers at Batteries Sweden (BASE), the national competence centre in this area, are working on the development of new types of lightweight, inexpensive, ...

### **Northvolt Achieves Major Milestone in ...**

Swedish battery manufacturer Northvolt announced a significant advance in sodium-ion battery technology for renewable energy storage ...

### **Swedish battery initiative receives Vinnova support: Ligna Energy ...**

10 hours ago Ligna Energy and Altris are developing the world's first ultrathin

sodium-ion battery, produced in Sweden and based on industrialised sodium-ion chemistry. With support from ...
