# **Tb65 charging box outdoor mobile power supply**

## Overview

---

What's new in a tb65 battery station?

The new Storage Mode and Ready-to-Fly Mode improve charging efficiency and extend the battery life. The new 360°-movement wheels facilitate more convenient transportation and transitions. The battery station provides eight TB65 battery ports, four WB37 battery ports, one USB-C maintenance port, one USB-C charging port, and one USB-A charging port.

How many tb65 & WB37 batteries can be charged simultaneously?

The new 360°-movement wheels facilitate more convenient transportation and transitions. The battery station provides eight TB65 battery ports, four WB37 battery ports, one USB-C maintenance port, one USB-C charging port, and one USB-A charging port. It can charge up to two TB65 batteries and one WB37 battery simultaneously.

How does the bs65 intelligent battery station work?

The new BS65 Intelligent Battery Station provides a one-stop solution for battery charging, storage, and transport. Multiple Charging Modes In Storage Mode, charge the battery to 50%, which is good for long-term storage. In Ready-to-Fly Mode, quickly charge multiple battery sets to 90% to start operation at any time and extend the battery life.

How long does it take to charge a tb65 intelligent flight battery?

The battery station is applicable only to TB65 intelligent flight batteries and WB37 intelligent batteries. So do not use it to charge other batteries. With a 220V power supply, it takes approximately 60 minutes to fully charge two TB65 Intelligent Flight Batteries and approximately 30 minutes to charge them from 20% to 90%.
