| 5 OPV1 side circuit breaker | 10 MPPT                     |

## Overview

---

Is solar hybrid energy a viable solution for sustainable living in Thailand?

Solar Hybrid Energy Solution for Sustainable Living in Thailand On July 28th, 2022, GSL ENERGY successfully installed a state-of-the-art solar hybrid energy system in Thailand, providing a reliable off-grid solution for home energy needs.

What is a solar hybrid system in Thailand?

This solar hybrid system is especially beneficial in Thailand, where electricity reliability can vary in rural or off-grid areas. By utilizing solar power, the system significantly reduces the homeowner's reliance on conventional energy sources, lowers electricity costs, and provides peace of mind in case of power outages.

How many batteries can be installed in one solar panel installation?

In one solar panel installation two batteries can be installed parallel. This makes a maximum storage capacity of 30kWh per inverter possible. LUNA2000 batteries are safe and reliable thanks to the lithium iron phosphate (LFP) battery cells. Faulty battery modules are automatically isolated to keep the system running.

Which batteries are compatible with Huawei inverters?

The LUNA2000 battery module is compatible with single and three phase Huawei inverters. In one solar panel installation two batteries can be installed parallel. This makes a maximum storage capacity of 30kWh per inverter possible. LUNA2000 batteries are safe and reliable thanks to the lithium iron phosphate (LFP) battery cells.
