There are several battery cabinet factories in St George

Overview

Does St George mining have a key mineral strategy?

Australian lithium explorer St George Mining's critical minerals strategy has received a significant boost with global battery industry giant Shanghai Jayson New Energy Materials tipping a further \$3 million into the Perth-based company.

Will Australia take advantage of the global lithium-ion battery market?

St George is among a bevy of Australian hopefuls seeking to take advantage of the global demand for lithium and other battery metals needed for electric vehicles (EV) and renewable energy storage. Modelling by consultancy InfoLink forecasts the global lithium-ion battery market to post a compound growth rate of 24% through 2030.

Does Jayson own St George?

Jayson and St George have entered into a subscription agreement whereby Jayson (through its controlled subsidiary Hong Kong Jayson Holding Co., Limited) will acquire nearly 79M fully paid shares in St George at an issue price A\$0.038 each to raise A\$3M.

What will St George do with the new money?

St George Executive Chairman John Prineas said the company will use the new money to better explore its portfolio of hard-rock lithium projects, with a priority focus on the flagship Mt Alexander lithium operation in Western Australia's Goldfields region.
