Tirana ups uninterruptible power supply equipment

Overview

What is an uninterruptible power supply (UPS)?

Uninterruptible Power Supply (UPS) | Schneider Electric Hong Kong, China. An Uninterruptible Power Supply system provides emergency power when the main source fails, using batteries to ensure a continuous supply. It conditions incoming power, protecting equipment from fluctuations. We offer various UPS power supply types for different needs.

Why do you need a 3-phase UPS system?

It also serves as a reliable battery backup. A 3-phase UPS system is crucial in data centres, edge computing, and industrial applications where uptime and data integrity are vital. It protects servers, storage systems, networking equipment from power quality issues.

What is a Schneider Electric 3 phase UPS?

Schneider Electric's 3-phase UPS range delivers superior power protection for data centres, healthcare facilities, and industrial operations. Products such as Galaxy VL and Easy UPS 3M offer modular designs, high efficiency, and lithium-ion battery options for enhanced flexibility and resilience.

What is a server ups & Easy Ups?

Solutions such as Smart-UPS and Easy UPS safeguard servers, network devices, and storage systems, maintaining business continuity with high-efficiency performance and advanced battery management. The Server UPS range includes variants like Smart-UPS On-Line and Easy UPS 3S.
