# **Tunisia frequency regulation energy storage project**

## Overview

---

Who regulates electricity in Tunisia?

MEMTE is responsible for electricity infrastructure, planning and the implementation of national policy in the field of electricity, energy efficiency and renewable energy, with regulatory oversight also carried out by the ministry. Yet, Tunisia has no independent regulator.

How many MW is a solar power system in Tunisia?

It is subject to authorisation by MIEM and is set by Decree No. 2016-1123: 10 MW for solar PV and solar thermal; 30 MW for wind energy; 15 MW for biomass; and 5 MW for projects using other renewable resources. Box 3. Addressing power system flexibility in Tunisia.

What is a renewables readiness assessment in Tunisia?

Renewables Readiness Assessment: Tunisia, prepared in collaboration with the National Agency for Energy Conservation (ANME) and the Ministry of Industry, Energy and Mines, identifies key challenges as the country pursues environmentally and economically sustainable power and heat.

How does the FTE work in Tunisia?

a transparent and competitive environment for renewable energy developers. settle conflicts among market actors relating to the interpretation or implementation of established legislation and procedures. The FTE is the main financing tool for renewable energy and energy efficiency activities in Tunisia.

## Tunisia frequency regulation energy storage project

---

### **MENALINKS launches Battery Energy Storage Systems (BESS) ...**

On 5 and 6 February 2025, the MENALINKS programme officially launched its Battery Energy Storage Systems (BESS) workstream in Tunisia. The kick-off brought together over 25 high ...

---

### **Energy storage system and applications in power system frequency regulation**

As renewable energy sources (RESs) increasingly penetrate modern power systems, energy storage systems (ESSs) are crucial for enhancing grid flexibility, reducing ...
