

BLINK SOLAR

US solar container battery Container Factory

Overview

Where does Saft manufacture lithium-ion battery containers?

In concurrent news, France-headquartered Saft has commissioned a new production line at its Jacksonville, Florida facility to produce the lithium-ion battery containers for its BESS solution.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Which US energy storage projects has Saft delivered?

Since delivering its first US energy storage project in Alaska in 2003, Saft has also delivered major projects such as the Myrtle and Danish Fields utility scale solar power plants in Texas, US, each exceeding 200 megawatt-hours (MWh) of storage.
