# Uninterruptible power supply active battery power supply

✓ 100KWH/215KWH

✓ LIQUID/AIR COOLING

✓ IP54/IP55

✓ BATTERY 6000 CYCLES

## Overview

---

What is an uninterruptible power supply (UPS)?

An Uninterruptible Power Supply (UPS) is a device designed to provide backup power when the primary power source fails or when voltage levels drop below acceptable limits. UPS systems are commonly used in computers, server farms, and data centers to ensure uninterrupted operation and protect digital data from power-related disruptions.

Are battery-backed uninterruptable power supplies reliable?

Reliability of power sources is an increasing challenge in many sectors and battery-backed uninterruptable power supplies (UPS) are one option to protect and keep electronic equipment operating in the event of grid power failure.

What are the different types of ups power supply?

Typically, according to different working principles, UPS power supply covers standby (offline) UPS, line-interactive UPS, online (double-conversion) UPS. The standby UPS system offers only the most basic features, providing surge protection and battery backup. Thus, its power supply quality is not good enough and the cost is much lower.

What is an Active Power UPS system?

An Active Power UPS system provides instant power backup, high efficiency, and exceptional reliability. It has a battery-free design for reduced maintenance and a lower total cost of ownership.

## Home

Active Power is a pioneer in the design and production of battery-free flywheel uninterruptible power supply (UPS)

systems. Our high-efficiency flywheel UPS solutions guarantee ...

- ✓ 100KW/174KWh
- ✓ Parallel up-to 3sets
- ✓ IP Grade 54
- ✓ EMS AND BMS

## Products

Our CLEANSOURCE® flywheel technology embodies elegance, efficiency, and cost-effectiveness, allowing us to pioneer innovative uninterruptible ...

- ✓ IP65/IP55 OUTDOOR CABINET
- ✓ IP54/55
- ✓ OUTDOOR ENERGY STORAGE CABINET
- ✓ OUTDOOR MODULE CABINET

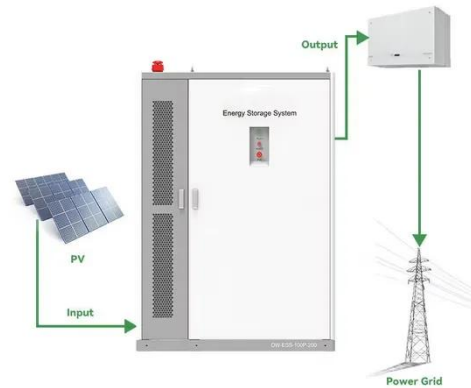

## Types of UPS (Uninterruptible Power Supply)

3 Phase UPS power protection, solving today's energy challenges while setting the standard for quality and innovation with fully integrated solutions for enterprise-wide networks, data ...

## Products

Our CLEANSOURCE® flywheel technology embodies elegance, efficiency, and cost-effectiveness,

allowing us to pioneer innovative uninterruptible power supply solutions. These ...

## DC-UPS , Uninterruptible power supplies

The reliable DC-UPS from PULS ensure highest system availability. The uninterruptible power supplies are available with capacitor storage or VRLA batteries.

## System Solution Guide

The uninterruptible power supplies protect the connected equipment from power problems and provide battery backup during power outages. Additionally, they protect against damage to the ...
