United Arab Emirates Solar Base Station Outdoor Site

Overview

How many GW of solar will be installed at Mohammed bin Rashid Al Maktoum?

The sixth phase of work at the Mohammed bin Rashid Al Maktoum Solar Park, set to add 1.8 GW of solar to the site, is more than two thirds complete with 1 GW now in operation. A further 1 GW of solar is operational at the Mohammed bin Rashid Al Maktoum Solar Park, the world's largest single-site solar park, located in the United Arab Emirates.

What is Mohammed bin Rashid Al Maktoum solar park?

The Mohammed bin Rashid Al Maktoum Solar Park is the largest single-site solar park in the world based on the Independent Power Producer (IPP) model. It has a planned production capacity of 5,000 MW by 2030, with investments totalling D 50 billion. When completed, it will save over 6.5 million tons of carbon emissions annually.

How much will Dubai solar park cost?

The Dubai Solar Park, which will cost AED 50 billion to build, is expected to produce around 5,000 MW by 2030. When complete, the MBR Solar Park is expected to reduce 6.5 million tonnes of carbon emissions annually. Dubai's commitment to renewable energy shines bright through the Mohammed bin Rashid Al Maktoum Solar Park.

Why is Dubai launching a solar park?

It was launched in 2012 by His Highness Sheikh Mohammed bin Rashid Al Maktoum, the Vice President and Prime Minister of the UAE and the Ruler of Dubai. The development of the solar park will further boost Dubai's status as a global leader in the clean and renewable energy sector.
