

# Uzbekistan Solar Energy

## Overview

---

What is solar energy policy in Uzbekistan?

This Solar Energy Policy in Uzbekistan Roadmap is part of the EU4Energy programme, a five-year initiative funded by the European Union. EU4Energy's aim is to support the development of evidence-based energy policy design and data capabilities in Eastern Partnership and Central Asian countries, of which Uzbekistan is a part.

Who collects energy statistics in Uzbekistan?

The State Committee of the Republic of Uzbekistan on Statistics is the official authority collecting energy statistics. It will play an important role in the future in collecting data on off-grid solar photovoltaics and solar heat use in households.

What is a large-scale solar PV project in Uzbekistan?

Large-scale solar PV projects have been subject to competitive bidding processes in Uzbekistan since 2019 and an awarded project can sign a long-term contract with NEGU at a fixed tariff, as noted above. The government of Uzbekistan also aims to develop small- and medium-scale solar projects.

Does Uzbekistan need a solar energy roadmap?

The government of Uzbekistan needs to periodically monitor its progress toward a solar energy future and to review policies and actions where appropriate. This roadmap provides a timeline through 2030 with key actions.
