# **Victoria Power Storage**

## Overview

---

What is Victoria's largest battery energy storage system?

The \$350 million (USD 224.4 million) project, being developed near the town of Little River about 45 kilometres southwest of Melbourne, will be one of the state's largest battery energy storage systems if it goes ahead and will "support Victoria's clean energy transition.".

Will Victorian Government approve a battery energy storage system?

The Victorian government has fast tracked the approval of what is to be one of the state's biggest battery energy storage systems as it seeks to accelerate the development of projects to support its renewable energy ambitions.

Can Victorian energy storage be connected by 2035?

Victorian Planning Minister Sonya Kilkenny said the new approvals pathway is playing a key role in achieving the state's energy storage targets of connecting at least 2.6 GW of energy storage capacity by 2030 and at least 6.3 GW by 2035.

How much does a storage unit cost in Victoria TX?

The average cost of a monthly storage unit in Victoria, TX is \$47.06. You can find cheaper storage units for your needs by comparing different storage sizes, amenities and prices on [SelfStorage.com](https://www.selfstorage.com).
