Vilnius New Energy Small Container Mei Station

Overview

What is E-Energija doing in Lithuania?

E-energija Group has commenced construction on Lithuania's largest battery energy storage system (BESS) project, the 120MWh Vilnius BESS. This facility, which is set to become Lithuania's first commercial battery storage site, will significantly increase the country's storage capacity by around 50%.

What is the largest 'private' Bess project in Lithuania?

IPP E energija Group has started building what it claims is the largest 'private' BESS project in Lithuania, a few weeks after the Baltic region decoupled from Russia's electricity grid. The 120MWh battery energy storage system (BESS) project near Vilnius, the capital of Lithuania, will come online by the end of 2025.

What is Lithuania's largest battery storage facility?

This project will become Lithuania's largest battery storage facility that is privately owned, boosting the country's total storage capacity by approximately 50%. The project is located near Vilnius and will be operational by the end of 2025.

What is E-Energija's battery energy storage system?

The system is expected to play a key role in optimizing the storage and distribution of renewable energy. E-energija Group has commenced construction on Lithuania's largest battery energy storage system (BESS) project, the 120MWh Vilnius BESS. This facility,
