Warranty for 15kW Photovoltaic Container Used for Field Research

Overview

How long does PV warranty insurance last?

Check out in 140 seconds how you will benefit from our PV Warranty Insurance for up to 30 years. Our PV Warranty Insurance is straightforward and effective: manufacturers protect their ability to pay excessive warranty claims on modules for a period of 25 years (up to 30 years for glass-glass modules).

Does Munich Re offer PV warranty insurance?

Thank you for your message. Your message has been sent to our PV Warranty insurance team. All manufacturers of PV modules seeking cover have to go through Munich Re's thorough due diligence process. For the first time, we detail the criteria used in Munich Re's quality assessment and how manufacturers have performed so far in terms of insurability.

How long does a solar module warranty last?

The policy covers losses sustained in relation to them over 20 to 25 years, in order to comply with the standard performance guarantee offered by the solar module manufacturers.

How can a long-term performance guarantee help a solar investment?

Long-term performance guarantees with tailor-made insurance solutions are aiming to strengthen the necessary confidence of the banking, finance and insurance sectors in solar investments. Download our free whitepaper and learn how linking quality assurance and insurance can bridge the certainty gap.
