Wellington 5 kW solar power

Overview

What is a 5kw Solar System?

A 5kW Solar System is a medium-sized System perfect for family homes, small commercial buildings or larger homes with less energy usage. Oops!
Something went wrong while submitting the form. Does 5kW Solar System suit my home?

A 5kW Solar System is perfect for you if you have a small to medium sized family and live in a medium-sized home.

How does a 5kw Solar System work in NZ?

Solar power puts you in charge of your electricity bills. Our 5kw solar system in NZ can reduce your power bills to zero. When you install the system, you can choose how much electricity you want.

Does Wellington have a good solar system?

Despite its reputation for wind, Wellington's climate delivers strong solar generation potential, with systems producing up to 7.1 kWh per day during summer months while maintaining 2.2 kWh daily output in winter. This reliable performance ensures consistent energy production throughout the year.

Is Wellington a good place to invest in solar energy?

Enjoy clean, renewable energy on your terms with \$0 upfront. With 2,053 annual sunshine hours and moderate energy costs, Wellington presents a compelling case for solar energy adoption. The region's consistent solar performance and growing installation rates demonstrate the viability of solar power even in the windy capital.

5kW Solar Power System

12-14 solar panels are required to make a 5 kW system. The amount of energy a 5 kW system generates depends on the solar radiation received in each region of New Zealand.
