Wellington Independent Energy Storage Power Station

Overview

What is the Wellington Battery energy storage system?

The Wellington Battery Energy Storage System comprise up to 6,200 pre-assembled battery enclosures with lithium-ion battery packs and associated equipment, transformers, and inverters. An on-site BESS substation will be built with two 330kV transformer bays, 33/0.440kV auxiliary transformers.

What is the Wellington Battery energy storage system (BESS)?

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia, a renewable energy assets developer in the country, owns 100% of the BESS project.

Will Wellington Bess be the largest battery storage project in NSW?

Once operational, it will have a capacity of 1,000-megawatt hours (MWh) of green power. This will make Wellington BESS one of the largest battery storage projects in NSW. Wellington is being constructed at 6773 and 6909 Goolma Road, Wuuluman NSW 2820.

Which is the largest battery storage project in NSW?

This will make Wellington BESS one of the largest battery storage projects in NSW. Wellington is being constructed at 6773 and 6909 Goolma Road, Wuuluman NSW 2820. The project site is situated within the Central-West Orana Renewable energy Zone (CWO REZ), in the Dubbo Regional Council local government area (LGA).

Wellington Independent Energy Storage Power Station

Bulabul Battery , AMPYR Energy Australia

The Bulabul Battery is located on Wiradjuri Country five kilometres north east of Wellington in the Dubbo Regional Council local Government area (LGA). The Bulabul Battery is adjacent to and ...

Wellington pumped storage independent energy ...

Wellington pumped storage independent energy storage power station What is the Wellington Battery energy storage system? The Wellington Battery Energy Storage System comprise up ...

Wellington Independent Energy Storage Station: Powering ...

If you're here, you're probably wondering how a giant "energy bank" like the Wellington Independent Energy Storage Station could reshape New South Wales' power grid. ...

Wellington South Battery Energy Storage System

The project incorporates a large-scale battery energy storage system (BESS) with a discharge capacity of 500 megawatts (MW), along with connection to the Wellington ...

AMPYR Australia Acquires Full Ownership of Wellington Battery Energy

AMPYR Australia has announced the acquisition of Shell Energy Australia's 50% stake in the Wellington Battery Energy Storage System (BESS) in New South Wales.

Shell Offloads Oz Battery Stake

Ampyr Australia has acquired Shell's 50% stake in the 300MW Wellington battery energy storage system (BESS) in New South Wales. With its Wellington BESS stage two ...

AMPYR and Shell Energy to Jointly Develop, Own and ...

The target capacity of the Wellington

BESS is 500 MW / 1,000 MWh, making it one of the largest battery storage projects in NSW. The Wellington BESS will connect to the ...

Wellington Battery Energy Storage System, Australia

The Wellington Battery Energy Storage System comprise up to 6,200 pre-assembled battery enclosures with lithium-ion battery packs and associated equipment, ...
