## Overview

---

Where to buy solar street lights in China?

For instance, you can choose LEADSUN, which has produced the best quality and durable street lights for 13 years now. Also, SOKOYO can be another option as it is China's biggest solar lights manufacturer company and supplies its products to over 70 countries. However, if you want a company with a high-tech enterprise certificate, go for SreSky.

Where to buy LED street lights in China?

Yaye is a well-known led solar street light manufacturer in China. They have a factory which is located in Zhongshan, Guangdong Province. They have been engaged in the R&D and manufacturing of LED lights products for over 20 years. Their solar lights are suitable for roads, parks, warehouses, and other outdoor places where illumination is required.

Where do solar street lights come from?

The main markets for Sunmaster are in Africa and the Middle East. These ten manufacturers are trailblazers in the ever-changing field of solar street lighting. The inventive folding design of Cmoonlight is just example of how the top 10 solar street light manufacturers have proven their dedication to quality products.

Who makes solar streetlights?

Sokoyo started its journey as a solar streetlights manufacturer and distributor in 2008. It is one of the top solar streetlights companies and supplies the lights in Africa, Australia, Asia, and 70 other countries. This company provides two types of solar streetlights: split type and gel battery solar streetlights.
