# What energy storage projects are there in DaZero Bay

*LiFePO<sub>4</sub> Battery, safety*

*Wide temperature: -20~55°C*

*Modular design, easy to expand*

*Wall-Mounted&Floor-Mounted*

*Intelligent BMS*

*Cycle Life: ≥ 6000*

*Warranty: 10 years*

## Overview

---

How do the Dachen Islands get electricity?

The Dachen Islands' electricity mainly comes from wind power generation, hydrogen energy storage and low-frequency power transmission, said Xia Ziyuan, the deputy mayor of Dachen town on the islands. The islands' location in the East China Sea guarantees blustery conditions with wind speeds reaching 6.8 meters per second.

Will the Dachen Islands become zero-carbon?

By becoming zero-carbon, the Dachen Islands will have strong ecological advantages which will drive the development of fishing, renewable energy projects and tourism on the islands, Xia said. The number of tourists on the islands has more than tripled to 170,000 a year from under 50,000 previously, he added.

Is Dachen Island China's first zero-carbon Island?

TAIZHOU, China-- (BUSINESS WIRE)-- The Taizhou Power Supply Company, a subsidiary of State Grid Zhejiang Electric Power Company, is proud to announce the successful transformation of Dachen Island into China's first zero-carbon island.

How many energy storage projects are there in the world?

It has 9.4GW of energy storage to its name with more than 225 energy storage projects scattered across the globe, operating in 47 markets. It also operates 24.1GW of AI-optimised renewables and storage, applied in some of the most demanding industrial applications.
