Where is the N Djamena new energy solar site

Overview

Key Figures & Findings: Chad has officially commissioned a 36 MW solar photovoltaic plant coupled with a 20 MWh battery energy storage system in Klessoum, on the outskirts of N'Djamena. Where is N'Djamena solar project located?

The project site is located 30 km north of N'Djamena on a 100ha piece of land awarded by presidential decree. The project consists of the design, financing, construction, operation, and transfer of a 28MWe solar PV plant and interconnection infrastructure.

Where is N'Djamena's first renewable power generation project located?

It is the first renewable power generation project in the country, as well as the first Public Private Partnership that the country is implementing. The project site is located 30 km north of N'Djamena on a 100ha piece of land awarded by presidential decree.

What is Djermaya solar?

Djermaya Solar is a key building block of the Desert to Power Initiative and is of high strategic importance for Chad. It is the first renewable power generation project in the country, as well as the first Public Private Partnership that the country is implementing.

What does Djermaya solar mean for Chad?

The proposed project concerns a EUR 18 million loan as well as a Partial Risk Guarantee (GPR), for the establishment of the Djermaya solar power plant in Chad. Djermaya Solar is a key building block of the Desert to Power Initiative and is of high strategic importance for Chad.
