Which brand of solar panels is suitable for home use

Overview

What are the best solar panel companies?

In terms of efficiency, brands such as Maxeon, Panasonic, LONGi, QCells, Silfab and REC are all potentially good options. We compared some of the best solar panel companies on efficiency ratings, warranty coverage, availability and reviews: » [MORE: Best solar phone chargers](#).

Which solar panels are best for your home?

With all factors being equal — location, available space (roof or another dedicated area), shading, climate and natural degradation of the panels — monocrystalline and polycrystalline panels are typically the best choice for residential energy needs.

What is the most popular brand in residential solar?

Qcells is the most popular brand in residential solar thanks to quality equipment and pricing. SolarReviews statistics show that 58% of solar installers offered Qcells panels in the past year, but changes in the competitive landscape kept it at the 3rd place spot on our list.

Which REC Solar panels are best?

Out of our top brands, REC offers the best bang for your buck: The Alpha Pure 410-watt panel maintains efficiency above 22%, and it has solid 25-year performance and product warranties. These panels also have one of the lowest temperature coefficients on the market, which means they perform better in hotter temperatures compared to other panels.
